Health and Wellness of our guests is a top priority!

Camp Cho-Yeh is known for clean facilities

Our housekeeping team cleans and disinfects between each guest groups’ stay at our facility.

During the course of the weekend, the housekeeping staff cleans common areas on a daily basis: Trading Post, Dining Hall, Public Restrooms.

What we are doing:
- Educating group leaders about our cleaning procedures
- Providing hand sanitizer for guests to use
- Reminding group leaders not to bring symptomatic guests, and if discovered, isolate and send home immediately

What retreat leaders should do:
Perform health screening before arriving at camp

Do not bring anyone who:
- has oral temperature above 100
- has a cough/or sore throat
- does not feel well enough to participate in activities (achy, fatigued, etc)

If a guest demonstrates symptoms while at Cho-Yeh, our policies require that leaders isolate and send home immediately.

What retreat guests should do:
Protecting yourself and your group while at camp

- Wash your hands for at least 20 seconds
- Avoid close contact
- Don’t touch eyes, nose, or mouth
- Fist bump instead of high five
- Cough into elbow instead of hand
